Technology Services Group (TSG), headquartered at 48 14th Street, Wheeling, has been authorized and certified for Apple Computers sales, service, and warranty repair, including the MacBook, MacBook Pro, MacBook Air, iMac, Mac mini, MacPro, Xserve, Mac OS X operating system, iLife, and iWork.

According to Robert Materkoski, TSG Vice President, “Given the rapidly increasing popularity of the Mac computer line, particularly among the education and creative markets, our Apple certification is a significant addition which solidifies our position as the premier provider of IT products and services in the area.”

For more information about TSG, call (304) 232-5427 or visit its website at www.techsgi.com.

*Founded in 1985, TSG is a full-service provider of technology products and services, including computer network design, installation and support; internet phone systems (VOIP); website design and development; **TSG e-Sign**sm Interactive Digital Signage systems; video conferencing systems; staff IT training; video and still photography production services; and **TSGconnect**sm Managed Services, which include network monitoring & security, help desk, performance enhancement, disaster recovery/prevention, spam & web filtering, patch management, and data vaulting. TSG can meet all of a client's technology needs, large or small, one location or many, freeing each client to concentrate on core business processes.*
